SCIENTIFIC MATTERS.

Telegraphing Railroad Signals.
Mr. Robinson, of Pioneer, Pa., has invented an ingenious way of telegraphing railroad signals, which consists of electric wires arranged in such a manner that when a train of cars is about a mile or a mile are mile and of all gelatine substances used in cooking, it is said to be the cheapest by over wires arranged in such a manner that when a train of cars is about a mile or a mile and of the age, its anti-bilious virtues are not the least remarkable. No words can do justice to its marvelous effect upon the diseased liver. Perhaps the simple words of a convalencent sufferer, who describes it as "going right to the spot," tell the story as clearly as may be. It does go right to the spot.

It convertes the signal of a manner that when a train of cars is about a mile or a mile and a half from a railroad crossing, the wheels of the cars will press a wire against the track, completing the magnetic circuit and causing a bell to ring until the train has passed the crossing, when the circuit is broken and the ringing ceases. A mile or two from the station there is a wire which is brought into contact with the track by It operates directly upon the disordered organ, and whether unduly active or in a state of paralysis, ore is removed, and since each release restores it to a condition of health. The Sickness breaks the circuit, a tap is given in each rank among the luxuries of the period.

PRINDLE'S

BOILER.

General Cooking, Heating and Steaming Apparatus for all Purposes. THE GREAT WANT that has been felt by Farmers and others for some chesp, safe and easy managed are prevented. Steam Apparatus with which to cook large quantities of food at a time for Stock, etc., is now fully realized in PRINDLE'S COMBINED STEAMER AND BOILER.

NO BURNING OF SUBSTANCES HEATED OR COOKED BY STEAM. The process of Cooking in quantities for stock is now rendered a pleasure instead of a task. As an Open Caldron and Furnace it has no Equal.

It is the only Portable Caldron and Furnace that has the great advantage or being readily converted into a Steamer or that has an air chamber around the Fire Box to prevent loss of heat.

The Furnace having a large base, cannot be upset, and the outer portion, being wrought iron gives it a greater strength and durability, and not liable to be cracked by heat or broken in handling, or by accident, like the large, heavy, cumbrous Cast Iron Farmers'; Boiler.

The Prindle Steamer "I am acquainted with Mr. H. T. Helmboid; he occupied the Drug Store opposite my residence, use, being adapted to all the various wants of the Farm, Kitchen, Dairy, Mechanical as well as many

Important Letter from Dr. Samuel Bard, Governor of Idaho. WASHINGTON, April 2, 1870.

lears. ALLCOCK & Co:-Your Porous Strengthening Plasters have proved of the greatest service to me. Some time since I was troubled with violent rheumatic or neuralgic pains in both of my arms. They gradually grew worse and approached the heart. Finding nothing I applied gave me relief, I tried your Porous Plasters, which I distely, and I have had no pain since. As an externa remedy your Plasters are incomparable. I have recommended them to many of my friends in the city of Atlanta, Ga., where I reside, and they are loud in their praise, the Plasters having proved equally useful in their cases as in mine. SAMUEL BARD, Late Editor Atlanta, (Ga.) Daily New Era.
